Getting started

To set up your ROG Spatha Gaming Mouse as a wired mouse:

1. Connect the micro USB cable to your ROG Spatha Gaming Mouse.
2. Connect the USB cable to your computer's USB port.

To set up your ROG Spatha Gaming Mouse as a wireless mouse:

1. Connect the micro USB cable to your wireless receiver/charging dock.
2. Connect the USB cable to your computer's USB port.

NOTE: Download the driver from <http://www.asus.com> then install it in your computer.

3. Press the Pair button on the rear of your wireless receiver/charging dock.
4. Slide the Power Switch to turn on your ROG Spatha Gaming Mouse.
5. Press the Pair button on your ROG Spatha Gaming Mouse.
6. The Dock LED indicator will light green when your ROG Spatha Gaming Mouse has successfully paired.

NOTE: Click on the left button to wake your ROG Spatha Gaming Mouse from sleep mode.

To update your ROG Spatha Gaming Mouse firmware:

1. Launch **ROG Armoury**.
2. Connect ROG Spatha Gaming Mouse to your computer as a wired mouse.
3. Click **Next** on the popup window to start the firmware update.

NOTE: The popup window will only appear if there is a new firmware update available.

IMPORTANT! When you encounter a problem while updating the firmware, unplug the micro USB cable, then press and hold down the left, right and scroll button on your mouse and replug the micro USB cable to restart the update.

To update your wireless receiver/charging dock firmware:

1. Launch **ROG Armoury**.
2. Connect the micro USB cable to your wireless receiver/charging dock.
3. Click **Next** on the popup window to start the firmware update.

NOTE: The popup window will only appear if there is a new firmware update available.

IMPORTANT! When you encounter a problem while updating the firmware, unplug the micro USB cable, then press and hold down the Pair button on the wireless receiver/charging dock and replug the micro USB cable to restart the update.

Replacing the switches

NOTE: Refer to www.asus.com for the list of compatible switches.

If you want to replace the switches, follow the steps below:

1. Remove the four (4) screws and set it aside.
2. Remove the top cover.
3. Replace the switches.

IMPORTANT!

- Ensure to install the switch into the switch socket with its button facing the front of the mouse.
 - Ensure that the switches are seated properly in the switch sockets.
-

4. Place the top cover and secure it with the four (4) screws.
