REPUBLIC OF GAMERS

For those who dare

Welcome to Republic of Gamers. It's a proving ground for the elite – a place where players and teams gather to celebrate camaraderie and gaming excellence. There's no room for mediocrity or weakness here.

This is a call for those who dare venture, defy convention, and rebel against conformity. You rise up to challenges, and are not afraid to stare failure in the face, time and time again. You stand by your instincts, as well as alongside comrades in need. Republic of Gamers is for those who dare seek the impossible because 'hard' isn't enough.

ROG is the Choice of Champions. If you dare, put on your game face and Join the Republic.

THE ROG LEGACY CONTINUES

ROG R&D engineers are hardcore gamers, too. We know gaming, and we are constantly striving to develop products that gamers need. Our goal: give gamers the ultimate gaming hardware.

I would still recommend the Chimera for those aforementioned professionals if they want an uncompromising portable monster machine to rip those FPS.

ROG Chimera G703GX (RTX 2080) – 04.2019

Pokdeward – Silver
POKDE.NET

The ASUS ROG Zephyrus S GX701 gaming laptop is a powerful machine and it's still surprising how they managed to pack so much in a slim chassis.

ROG Zephyrus S GX701 (RTX2070) – 03.2019

Wanuxi

小编在游玩了这款笔电后，顿时觉得不想再用原本的工作笔电了，因为不论是日常使用，或者是玩游戏都好，顺畅度都非常高。

ROG Zephyrus S GX701 (RTX2070) – 03.2019

Skor Amanz – 8.0
Amanz.net

Jika anda seorang gamer yang mementingkan "future-proofing" untuk peranti-peranti anda, ASUS ROG Strix SCAR II dengan kad grafik NVIDIA GeForce RTX 2070 ini mungkin sesuai untuk anda.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

CHIP – Editor's Choice
CHIP Malaysia

Sporting the latest NVIDIA GeForce RTX 2070 graphics card, the laptop is capable of outputting incredible performance and allowing gamers to enjoy the most out of their gaming.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

KCHUP

Memang best pengalaman aku main game kat laptop ni. Smooth and laju.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

Gamer Braves

In a nutshell, the ROG Zephyrus S GX701 is without a doubt a beast of a laptop which can easily play games at 80FPS and above thanks to RTX2080 graphic card.

ROG Zephyrus S GX701 (RTX2070) – 03.2019

Gamer Santai

Sekiranya anda mahukan laptop yang berkuasa tinggi dengan bajet yang lebih, kami akan mengesyorkan komputer riba ini kepada semua orang.

ROG Zephyrus S GX701 (RTX2070) – 03.2019

ERING.com.my

Komputer ini merupakan antara yang terbaik bagi komputer gaming, disertakan dengan kad grafik NVIDIA GeForce RTX2070 pastinya memberikan kesan grafik yang terbaik ketika bermain game.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

Score – 8.6
PC.com

Overall what we got here is the most up to date gaming laptop system available (for now). It's sleek and modern. You'll be able to enjoy most modern games with this laptop.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

Stuff Malaysia

An awesome high-end gaming laptop to fulfill all the ray-tracing buzz.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

NasiLemakTech

If you're in the market looking for a high-performance gaming power station with the latest RTX graphics card, perhaps you will be interested with the ROG Strix SCAR II GL704.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

7.8 Score
Tavesper.tech

ROG Scar II is one of the very few laptops in the market that is powered with the new RTX hard which makes it a choice that's worth considering.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

KL GadgetGuy

One of the obvious you are looking to buy an RTX gaming laptop is all the hype NVIDIA has been building up, while the ROG Strix SCAR II delivers excellent performance and features that gamers will love.

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

ASUS memperkenalkan barisan baru dalam komputer riba mereka, Sedap bohhh RTX 2070!

ROG Strix SCAR II GL704 (RTX2070) – 01.2019

Gamer Santai

ROG GL12CX menjadi pilihan yang baik bagi mereka yang hanya mahu mesin siap sedia yang mengendalikan sebarang permainan yang akan dimainkan, tidak kira game jenis apa.

ROG Desktop Strix GL12CX (RTX 2080) – 03.2019

Wanuxi

小编在这里推荐对游戏需求很高的玩家可以考虑这台游戏主机，它可以保证在几年内玩家不需要为了升级电脑而发愁

ROG Desktop Strix GL12CX (RTX 2080) – 03.2019

Gamer Braves

You can safely assume that you will get a superb gaming performance under ultra graphics settings along with a great cooling performance on it

ROG Desktop Strix GL12CX (RTX 2080) – 03.2019

THE LATEST RTX GEFORCE GRAPHICS

The new NVIDIA Turing™ graphics architecture brings real-time ray tracing and AI to games. With industry-leading NVIDIA® GeForce RTX™ Series GPUs up to 2080, ROG gaming products reach triple-digit FPS in the hottest games and enables next-level immersion in virtual reality.

THE LATEST 9TH GENERATION INTEL CORE PROCESSORS

Exceptional platform performance

The latest ROG gaming machines are powered by 9th Generation Intel® Core™ processors for unrivaled performance and astounding visuals, ensuring the very best gaming experience.

Even demanding games and programs run like silk with the latest 9th Gen Intel® Core™ i7-9750H CPU. The new 6-core processor reaches speeds of up to 4GHz with Turbo Boost 2.0 technology, while Hyper-Threading enables up to 12 parallel threads to accelerate heavy multitasking. Multimedia professionals can work on intensive projects, like video editing and 3D rendering, faster and more efficiently; and gamers can play, chat with teammates, and live-stream the action all at the same time.

For the ROG Series, ROG Mothership and G703 are now powered by the latest 9th Gen Intel® Core™ i9-9880H CPU. This 8-core processor pushes frequencies as high as 4.1GHz with a single core, and Hyper-Threading enables up to 16 parallel threads to accelerate heavy multitasking. Content creators can work on massive projects, like video editing and 3D rendering, quickly and efficiently, while gamers can play, chat, and live-stream the action all at the same time.

INTEL® THUNDERBOLT™ 3

Super-fast transfer speeds with Thunderbolt™ 3 USB Type-C

Intel® Thunderbolt™ technology gives you single-cable data and signal transmission rates of up to 40Gbps – 4x the bandwidth of USB 3.1. ROG laptops feature both Intel Thunderbolt 3 and USB Type-C for increased compatibility with your various devices.

Faster data transmission

Thunderbolt 3	40 Gbps	80X faster
USB-C 3.1	10 Gbps	20X faster
USB-C 2.0	0.5 Gbps	

EXCLUSIVE ROG HYPERDRIVE TECHNOLOGY

Exclusive ROG HyperDrive technology features blazing-fast data read and write speeds to get you into the game before everyone else. ROG Zephyrus includes the latest NVMe and PCIe® technologies to quick data access and transfer rates at speeds of up to 3200MB/s for superfast game load times, so you spend less time waiting and more time gaming!

* ROG HyperDrive is only available on Zephyrus series models.

ROG Mothership series goes a step further; with ROG HyperDrive Extreme technology to combine up to three NVMe PCIe 3.0 x4 SSDs with the world's fastest RAID 0 storage available in a gaming laptop – so your games load up faster. Having two out of the three SSDs directly connected to the CPU helps avoid DMI bottlenecks, allowing for speeds of up to 8700MB/s.

* ROG HyperDrive Extreme is only available on ROG Mothership and G703 models

* Actual performance may vary according to system configuration.

* Intel 760p SSDs are required for the two CPU-attached slots for a RAID 0 setup comprising of three NVMe PCIe 3.0 x4 SSDs.

HyperDrive SSD performance benchmark

HyperDrive Extreme	Up to 8700MB/s	5.8X faster
HyperDrive	3200MB/s	2.1X faster
NVMe PCIe Gen3 x4	2500MB/s	1.6X faster
NVMe PCIe Gen3 x2	1500MB/s	

SUPERFAST SSD & SSHD STORAGE

The latest M.2 NVMe PCIe® 3.0 x4 SSD provides data read and write speeds of up to 3190MB/s and 1235MB/s respectively. When compared to a SATA III SSD, the M.2 SSD offers 5.67X faster read speeds and 4.6X faster write speeds so everything you do feels faster.

SSD Benchmark (Seq Read)

PCIe 3.0 x4 **3190 MB/s** **5.67X** faster

SATA III **562 MB/s**

SSD Benchmark (Seq Write)

PCIe 3.0 x4 **1235 MB/s** **4.6X** faster

SATA III **268 MB/s**

The FireCuda™ SSHD is the perfect secondary storage drive. This 5400-rpm SSHD loads games almost 2.5X faster than standard 7200-rpm HDDs.

GAME LOADING TIME BENCHMARK

5400-rpm SSHD **12 secs** **2.4X** faster

7200-rpm HDD **29 secs**

POWERFUL MEMORY

The latest DDR4 memory helps you get the best out of your ROG laptop. Benefit from improved speed and lower power consumption with up to 32GB of DDR4 2666MHz dual-channel RAM. The 2666MHz RAM provides a 1.6X performance boost over 1600MHz RAM to take your gaming experience to new heights.

CPU performance benchmark

DDR4-2666 MHz **1.6X**

DDR4-2400 MHz **1.5x**

DDR4-2133 MHz **1.3x**

DDR4-1600 MHz

PROART™ TRUECOLOR TECHNOLOGY FOR SPECTACULAR VISUALS

100% sRGB

Precise colors are paramount for artists, designers, and other content creators who work and play on the same machine. That's why the display is carefully calibrated at the factory. ProArt™ TruColor Technology guarantees that each one meets stringent Pantone® Color Validation requirements for color accuracy and uniformity.

CONVENTIONAL PANEL

PANTONE VALIDATED PANEL

TURN UP THE HI-RES AUDIO

SABRE
HiFi

Redesigning the form factor lets us arrange four speakers along the front edge to fire high-quality sound directly at you. ROG's audio is powered by a premium ESS® Sabre HiFi DAC with Hi-Res Audio certification. Smart amplification lets you pump up the volume without damaging the speakers, while virtualization simulates surround sound for stereo devices like headphones and VR headsets.

*Actual product may vary depending on different configurations

RESPONSIVE KEYBOARD WITH HYPERSTRIKE EXTREME TECHNOLOGY

HyperExtreme
Strike

Exclusive ROG HyperStrike Extreme is designed to give you accurate, decisive control. It features a desktop-inspired keyboard layout with isolated arrow keys, individually customizable Aura RGB backlit keys, and unique hotkeys for quick access to the Xbox game bar, ROG Aura, Gaming Center apps and volume controls. It's ergonomically-designed, too, with 2.5mm key travel, 0.3mm dished keycaps, and a durable anti-slip palm rest so you stay comfortable during gaming marathons.

*ROG HyperStrike Extreme is only available on ROG G703GI/GS models.

ABSOLUTE PRECISION WITH HYPERSTRIKE PRO TECHNOLOGY

HyperPro
Strike

A revised keyboard with HyperStrike Pro technology puts decisive control at your fingertips. It features a desktop-inspired layout, four hotkeys, customizable RGB backlighting across four zones, a highlighted WASD and QWER key group with transparent key caps, and ergonomic 0.25mm-deep keycap curves for more comfortable typing. Exclusive ROG Overstroke technology enables earlier key actuation and a longer over-stroke distance for fast, accurate and effortless keystrokes that increase your actions per minute. N-key rollover technology ensures multiple simultaneous keystrokes are instantly logged, while anti-ghosting ensures no false commands are registered — so you're in full control when precision is needed. With a lifespan of 20 million key presses, SCAR II has one of the most durable keyboards to be found in a laptop — double that of the current industry standard.

ROG ACTIVE AERODYNAMIC SYSTEM

ROG Zephyrus is armed with an exclusive Active Aerodynamic System (AAS) that breaks all the rules. AAS combines intelligent design with innovative technologies to give gamers what they want: an ultra-slim laptop that runs cooler and quieter without sacrificing performance.

When the laptop is opened, a portion of the bottom flexes to create 20% more open space for air circulation. Along with our unique Aero Accelerator technology, this gap improves airflow by 32% and reduces temperatures by 20% compared to conventional cooling. You can game for hours on end with impeccable stability and no throttling. ROG Zephyrus offers the highest level of performance in the smallest chassis.

LINK: <http://channel.asus.com/ExternalFile.aspx?path=c64a5a173e7b46cbae12098d98de54d4>
*AAS is only available for Zephyrus series.

ROG HEAVY-DUTY HYPERCOOL PRO TECHNOLOGY

The heavy-duty HyperCool Pro thermal system was designed to unleash the full potential of the powerful CPU and GPU — providing stable system performance even while overclocking. Supported by an airflow-optimized chassis with four fan outlets, two high-performance fans deliver strong airflow and increased air pressure to ensure system stability at heavy loads. Fan performance can further be customized via Armoury Crate. Ultrathin thermal fins provide a larger surface area for heat dissipation. An extensive network of heat pipes helps cool not only the CPU and GPU, but also vital chipset power components, while the patented Anti-Dust Cooling system expels dust and dirt particles out of the chassis to improve system stability and lifespan.

*ROG HyperCool Extreme is only available on G703GI/GS models.

ROG HYPERCOOL PRO TECHNOLOGY

The HyperCool Pro thermal system has a host of features to help Strix SCAR II and Hero II get the most out of its GPU and CPU. There's an extended cooling plate to spread heat evenly, and two high-performance 12V fans that deliver stronger airflow and increase air pressure to ensure a stable system even under heavy loads. HyperCool Pro also includes the patented Anti-Dust Cooling system that expels dust particles and dirt to improve system reliability and durability.

*Specifications may vary according to configuration.

*HyperCool Pro is only available for ROG Strix SCAR II & Hero II series

RANGEBOOST FOR ZERO-DEAD- SPOT WI-FI CONNECTION

ROG Strix gaming laptops are the first in the world to feature multi-antenna Wi-Fi for 30% more range, higher Wi-Fi throughput, and fewer connection drops. Patented ROG RangeBoost technology combines four antennas located at the back and front of the machine with a unique algorithm that constantly scans and selects the best pair of antennas able to cover each other's dead spots, resulting in the strongest possible signal. The latest 802.11ac Wave 2 Wi-Fi standard delivers speeds of up to 1.7Gbps — twice that of 802.11ac 2x2 and 12x that of 802.11b/g/n!

MAXIMUM BANDWIDTH, MINIMUM ENERGY CONSUMPTION

Strix SCAR Edition features the latest 802.11ac 2x2 Wave 2 Wi-Fi standard, with two antennas each for both transmission and reception, for speeds that are up to 1.7 Gbps, that's 2x faster than 802.11ac 2x2 and 12x faster than 802.11b/g/n. The 2x2 wireless configuration provides up to 30% more coverage than the 1x1 configuration. A more reliable and robust wireless connection ensures better gaming experiences. ROG First also ensures ROG routers and ASUS RT-series routers prioritize packets according to the GameFirst V settings in your ROG laptop for faster, more stable connections. Strix SCAR Edition even has low-energy Bluetooth® 4.1, enabling you to game longer and more reliably with your Bluetooth peripherals!

* Specifications may vary according to configuration.

Wifi connectivity benchmark

802.11ac 2x2 Wave 2	1733Mbps	12X faster
802.11ac 2x2	867Mbps	6X faster
802.11b/g/n	150Mbps	

AURA SYNC FOR ULTIMATE PERSONALIZATION

Aura Sync technology gives you the freedom to customize and sync up light effects with Aura Sync-supported gaming mice, headsets, and other peripherals to give your entire gaming setup a consistent look and feel. With a full spectrum of colors to choose from, as well as eight different lighting modes that can be accessed via Armoury Crate, Aura Sync technology lets you express your gaming persona, or the feel of the game you're currently playing.

*Effects may vary by models

AURA RGB PER-KEY

Exclusive Aura RGB lighting technology allows you to customize light effects right down to individual keys via Armoury Crate. You can even create unique color patterns for each game to help you find and master its controls.

UNIFIED SYSTEM CONTROL WITH ARMOURY CRATE

The brand-new ROG Armoury Crate software unifies system and lighting control and puts them at your fingertips. Its user-friendly interface lets you manage up to four gaming profiles that automatically load your preferred settings when you launch your favorite titles. These options are the beginning for what will become an even more versatile tool.

Aura Core
Customize your RGB keyboard

Fan Settings
Control noise levels and power consumptions

XSplit Gamecaster
Stream and broadcast directly to International streaming platforms

Android iOS App
Access Armoury Crate from your smartphones

GameFirst V
Network-optimization software for gameplay

GameVisuals
Adjust different presets in different genres

Sonic Studio III
Immersive in-game audio software

Sonic Radar III
A perfect tool for practice rounds and tuning untrained ears

EXTREME TESTING

All ROG notebooks go through a series of durability tests to ensure toughness and reliability. They're tested under extreme conditions and situations to ensure they're always up to the high standards expected of ROG gear.

PRESSURE TEST

Premium panels must be able to handle limited spaces such as suitcases without causing damage, panel pressure testing ensures ASUS ROG Notebooks only use the best panels.

OVERCLOCKING TEST

Overclocking puts a lot of strain on system components, often resulting in overheating. ASUS ROG laptops and desktops are subjected to stringent temperature and performance tests in a specially-designed foam-lined heat box to ensure they live up to gamers expectations and the high quality standards demanded by ASUS.

VIBRATION TEST

Riding on bumpy roads, some PCs may start falling apart. But not our ASUS ROG Notebooks! Harsh vibration testing ensures parts stay put and performance remains consistent even when everything starts shaking!

KEYBOARD TEST

Express yourself confidently thanks to our extreme keyboard durability tests, where special robots punch each key to check its feedback and lastability even in the face of some brutal input that may happen!

TWIST TEST

Twist test checks chassis rigidity. Grabbing the notebook with one hand? No problem, this trial checks for uneven twist force endurance to give you the flexibility you need when using your ASUS ROG Notebooks.

TEMPERATURE TEST

All ROG gaming laptops are subjected to strict thermal tests to ensure smooth and stable performance under the most demanding loads.

STRINGENT QUALITY CONTROL

DROP TEST

ASUS quality means our ROG Notebooks are able to handle drops without suffering any kind of damage to internal components or external design, far beyond industry standards for free fall resistance.

NOISE TEST

Abrasive noise tests check for loud fans, storage, even power delivery buzz, hushing them to create quiet ROG Notebooks. The entire chassis then passes audio tuning to deliver the best sound possible.

SHOCK TEST

Shock test simulates incident that may occur during shipping. Here in ASUS, our engineers make sure ASUS ROG Notebooks survive these with no performance penalty.

ADVANCED HINGE TEST

Notebook lid hinges are weak spots. Use cheap materials and they'll snap. Vigorous hinge testing conducts thousands of open/close cycles, making sure hinges last for long.

ACCELERATION TEST

HALT test stands for Highly Accelerated Life Test, and express moves notebooks through their typical life cycle to ferret out problems, with extensive analysis conducted by engineers.

ABRASIVE TEST

Abrasive resistance test subjects ASUS ROG Notebook exteriors to friction, indicating colors and surface materials stay at prime condition even after extensive and demanding usage.

PORT TEST

Port test ascertains contacts and plugs are solid for frequent plugging / unplugging and can handle cable quality variations without data transfer and fidelity degradation.

GAME RECOMMENDATIONS

RETHINK THE FORM FACTOR

Each aluminum unibody is milled to perfection with a precise CNC machining process. A stepless hinge lets the chassis stand tall or lean back to suit any setting. The versatile design enables different usage scenarios: detach and reposition the keyboard for your ideal gaming stance, or remove it to connect desktop peripherals. ROG Mothership can deploy on the road or power a full battlestation at home.

Versatile
SetupDetachable
KeyboardCNC
Unibody

STAND TALL TO BREATHE DEEPER

Laptops have limited airflow because most intake is from vents under the chassis, where there's little room to breathe, but ROG Mothership's unique design inhales cool air freely from the back. Standing tall lowers temperatures by up to 14°C*, and liquid metal takes CPU cooling to the next level. Seamless switching between Scenario Profiles optimizes performance and acoustics for the task at hand.

TAKE THE LATEST HARDWARE TO THE NEXT LEVEL

Take the latest hardware to the next level ROG Mothership raises the bar with a factory overclocked GPU and CPU that are unlocked for further tuning. The GeForce RTX™ 2080 boosts up to 1880MHz at 200W, and its 8GB of GDDR6 VRAM is clocked at 7200MHz, setting a new standard for laptop gaming and VR performance, while the 9th Gen Intel® Core™ i9 CPU unleashes eight cores and 16 threads on heavy workloads.* They're paired with up to three NVMe SSDs in RAID 0, with two drives connected to the CPU to reach an insane 8700MB/s.

ULTRAFAST 144HZ/3MS NVIDIA® G-SYNCTM DISPLAY

Immerse yourself in gorgeous graphics on the 17.3" IPS-level display. The Full HD panel's 144Hz refresh rate and 3ms response time are tailored for fast-paced games, while G-SYNC™ technology delivers smoother gameplay with lower input lag and no tearing. ROG-exclusive software lets you switch between modes that offer the best gaming experience with G-SYNC™ or longer battery life with Optimus, so you can choose the right one to suit the situation.

HAVE THE KEYBOARD YOUR WAY

Gaming desktops let you set the keyboard at just the right angle, and ROG Mothership offers the same freedom. Its keyboard easily pulls away from magnetic anchors and can run wirelessly on 2.4GHz or tethered via USB Type-C. Fast-firing

DESKTOP-GRADE PERFORMANCE

With performance rivalling that of gaming desktops, G703 is powered by up to a factory-overclocked Intel Core i9-9980HK processor that's been factory-overclocked for speeds of up to 5.0GHz. Its RTX™ 2080 graphics and 8GB GDDR6 VRAM are also factory-overclocked.

SMOOTH AND SEAMLESS GAMING

G703 features the most responsive IPS-level laptop display available. This 17.3-inch panel features a 144Hz refresh rate and G-SYNC technology for smooth and seamless graphics. The ultrafast 3ms GTG response time reduces motion blur, enabling G703 to handle the latest AAA gaming titles at Ultra graphics settings without visual tearing, lag, ghosting or obvious frame rate stutter.

FASTEST EVER STORAGE ON A LAPTOP

HyperDrive Extreme storage uses exclusive technology to combine up to three NVMe PCIe 3.0 x4 SSDs, providing G703 with the world's fastest RAID 0 storage configuration available in a gaming laptop. Having two out of the three SSDs directly connected to the CPU helps avoid DMI bottlenecks, allowing for data access speeds of up to 8700MB/s.

THE PATENTED ANTI-DUST COOLING SYSTEM

The patented Anti-Dust Cooling (ADC) system enables G703 to clean itself of harmful dust and particles. Acting like an immune system, dust, dirt and other particles are ejected from the chassis through two dedicated tunnels via centrifugal force, preventing build-up in the thermal fins to increase system stability and lifespan. Two high-performance, dual-outlet fans blow air through ultrathin fins, while the unique heat-pipe architecture cools the CPU, GPU and chipset power components independently.

ARMED WITH NVIDIA® GEFORCE RTX™ 2080

NVIDIA Turing™ architecture offers incredibly photorealistic graphics, thanks to AI-enhanced image processing Tensor Cores and real-time ray tracing technology.

AURA RGB LIGHTING KEYBOARD

Exclusive Aura RGB lighting technology allows you to customize light effects right down to individual keys. You can even create unique color patterns for each game to help you find and master its controls. The keyboard used in G703 features N-key rollover and anti-ghosting technologies to provide precise control; while a 2.5mm travel distance, a 0.3mm keycap curve, and a durable anti-slip palm rest ensure you stay comfortable.

THE MOST COMPACT 17-INCH GAMING LAPTOP EVER

Zephyrus S comes with slim bezels and smart design and make it the smallest in its class. Easily carry it around town or across the world thanks to compact dimensions that put a 17-inch display in a 15-inch form factor. The sleek magnesium-alloy body fits inside standard bags and is strong enough to stand up to everyday life.

IMPECCABLE GAMING VISUALS

Zephyrus S has an IPS-level panel with a 144Hz refresh rate and 3ms GTG response time for superfast visuals with minimal ghosting and motion blur. In addition, NVIDIA G-SYNC™ display technology synchronizes the display's refresh rate with the NVIDIA GeForce graphics card's frame rate, ensuring ultra-smooth visuals. G-SYNC™ reduces lag, minimizes perceived stutter, and eliminates visual tearing — providing the smoothest, fastest and most breath-taking gaming imaginable, without affecting system performance. The panel also features a 100% sRGB color gamut and wide-view technology to ensure lifelike colors, even when viewing the display from extreme positions.

AURA SYNC FOR ULTIMATE PERSONALIZATION

Zephyrus S has a keyboard that sits right at the front of the chassis — a design that allows for better cooling of internal components. It features anti-ghosting and N-key rollover so all keystrokes are correctly logged. A touchpad situated to the right of the keyboard features a numeric keypad function that can be easily activated by a hotkey. Aura Sync provides six dynamic and customizable light effects by individual keys, and can be synchronized with other Aura Sync-compatible products to create a gaming setup with a consistent look and feel.

ROG-EXCLUSIVE COOLING SYSTEM - AAS

The exclusive Active Aerodynamic System (AAS) allows Zephyrus S to run cooler and quieter without sacrificing performance. It incorporates unique AeroAccelerator (AA) and Anti-Dust Cooling technologies, and powerful 12-volt fans to increase the speed and efficiency of airflow through the laptop. The fans feature a curved fan shroud designed to enhance airflow to channel heat away from internal components more effectively. When Zephyrus S is opened, a portion of the bottom of the chassis flexes to increase the airflow volume by 20%.

QUICKLY SWITCH GEARS FOR WORK AND PLAY

Live a double life powered by the ROG-exclusive GPU switch. With just a few clicks, ROG Zephyrus S transitions between better gaming and longer battery life. G-SYNC™ mode synchronizes the GPU and display to deliver smoother gameplay with lower input lag and tear-free graphics, while Optimus mode selectively turns off the discrete GPU to save power with everyday desktop productivity and entertainment

THE NEW STANDARD FOR ULTRAPORTABLE GAMING

Clever design and expert craftsmanship are required to put high-end chips into the slimmest gaming laptop ever. At just 15.35~16.15mm thin with a GeForce RTX™ 2080 with Max-Q design GPU, ROG Zephyrus S is portable and power enough for life on the go. In one fluid motion of hidden scissor-door hinges, it transforms from svelte sidekick to gaming powerhouse.

SHRINKING BEZELS WITHOUT SACRIFICING SPEED

Super-narrow bezels draw you deeper into the action on the 240Hz IPS-level display. The high refresh rate makes gameplay smoother and lowers input lag, while the 3ms gray-to-gray response time produces sharper visuals with no blurring. With the full sRGB color gamut and wide viewing angles, ROG Zephyrus S blends speed and beauty without compromise.

240Hz

3ms

100%

170°

COOL UNDER PRESSURE

The unique ROG Active Aerodynamic System (AAS) expands to help Zephyrus S sustain high GPU clocks with demanding games. Lifting the lid opens a 5-mm intake that increases airflow by up to 22% compared to traditional designs. Anti-dust tunnels keep the four heatsinks clean to preserve cooling performance and system stability as the hours add up.

AURA SYNC BEYOND THE GAMING KEYBOARD

The keyboard ensures precise input in the heat of battle, and it's built to last. You can customize the backlight colors and effects to suit your style, and another configurable RGB zone illuminates the AAS intake at the back. Aura Sync harmonizes lighting across compatible ROG mice, headsets, and other peripherals to give your setup a cohesive look.

COMPACT, AND SOLID TOO

The impressively lightweight form belies heavyweight power. At 18.9mm thin and under 2kg, the Zephyrus S GX502 is 25% thinner and 42% lighter than typical 15" laptops. But it refuses to compromise between work and play, delivering dynamic performance and refined styling that's truly the best of both worlds. Its sleek, reinforced metal chassis makes it resilient against everyday use and wear, while the subtle, soft-touch skin along the palm rest keeps it looking clean and professional for work anywhere.

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for the chassis and components, no matter what you're doing. In the Zephyrus S GX502, our innovative Active Aerodynamic System (AAS) opens additional vents to increase airflow by 22%, while the self-cleaning thermal module ejects dust to improve longevity. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

GPU SWITCH ADDS ADAPTABILITY

Live a double life with our unique GPU switch. This exclusive ROG technology gives you the freedom to improve your gaming experience with G-SYNC™, which reduces stuttering and eliminates tearing, or get better battery life with Optimus, which intelligently turns off the GPU to save power. The Zephyrus S GX502 is capable of reaching up to 8 hours of battery life, so you can unplug and take work and entertainment with you anywhere.

TRUE COLOR AND SPEED ON DISPLAY

Exceptional color accuracy and responsiveness set this 15.6-inch panel apart from the competition. Fast-paced games run smoothly with crisp graphics thanks to the blazing fast 240Hz refresh rate and 3ms response time. Slim bezels surround the IPS-level display, expanding your visual immersion, while factory calibration with ProArt™ TruColor Technology ensures a Pantone® Validated palette across the full sRGB color space for all of your professional pursuits and portfolio projects.

Smooth 240Hz Fresh Rate Quick 3ms Response Time 81% Screen-to-body Ratio 100% sRGB Pantone Validated

YOUR KEYBOARD, YOUR STYLE

Designed for precise input, the desktop-style keyboard features spaces between function keys for intuitive identification, dedicated hot keys to keep vital commands close at hand, and N-key rollover to accurately register simultaneous presses. Per-key RGB customization is excellent for highlighting critical keys for different games, and workflow-specific shortcuts that save time. Aura Sync lets you coordinate colors and visuals across compatible devices to make your gaming environment your own.

SLEEK, STRONG, AND ULTRA-SLIM

The impressively lightweight form belies heavyweight power. At 18.9mm thin and 1.9kg, the Zephyrus M GU502 is 25% thinner and 42% lighter than typical 15" laptops. But it refuses to compromise between work and play, delivering dynamic performance and refined styling that's truly the best of both worlds. Its sleek, reinforced metal chassis makes it resilient against everyday use and wear, while the subtle, soft-touch skin along the palm rest keeps it looking clean and professional for work anywhere.

DO MORE ON THE MOVE

Longer battery life makes true portability a reality in the versatile ROG Zephyrus M. Unplug and take full advantage of its easy-to-carry form factor with up to 8 hours of battery life on a single charge. NVIDIA Optimus technology improves efficiency by intelligently turning off the discrete GPU when dedicated graphics power isn't required, giving you more battery life for everyday work and productivity without slowing gaming performance.

TAP INTO PORTABLE TYPE-C POWER

USB Power Delivery supports secondary charging from portable power packs, so you don't have to fight for a socket when the battery gets low. Fast-charging support reverses the direction, using up to 3A to quickly rejuvenate smartphones and other devices. If you're not loading the CPU or discrete GPU with intensive tasks, you can use a smaller adapter up to 65W that lightens your load on the road.

THE KEYS TO CUSTOMIZATION

Type in style with a desktop-inspired keyboard made for gaming. Function keys are spaced and grouped for easy identification alongside dedicated hot keys that keep essential commands within easy reach. Full N-Key rollover ensures that simultaneous presses register correctly, increasing precision. Highlight key controls for different games and workflows with per-key RGB customization, and coordinate colors and visual effects across all of your compatible peripherals with Aura Sync.

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each chassis and components, no matter what you're doing. The Zephyrus M's self-cleaning thermal module ejects dust to improve longevity, dual n-Blade fans spin 83 blades to increase airflow, and ultra-thin fins expand the surface area for heat dissipation. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

SLEEK AND PORTABLE

Streamlined design and stealthy styling help the ROG Zephyrus G blend in everywhere from battlestations and LAN parties to classrooms and coffee shops. Travel effortlessly between them with a compact body that's just 20mm thin and 2.1kg. Slim bezels fit the 15" display into a 14" chassis that's easy to carry in crowded bags and tight spaces, and the narrower footprint leaves more room for mousing on messy desks. Though quietly confident, the understated looks remain unmistakably ROG.

WORK HARD. PLAY HARD.

Intelligently configured and expertly tuned, the ROG Zephyrus G starts with a quad-core AMD Ryzen™ 7 3750H CPU that slices through serious work and everyday multitasking. It's paired with a GeForce® GTX 1660 Ti discrete GPU that boosts up to 1335MHz at 60W to provide ample horsepower for a wide range of popular games and VR experiences. With up to a 512GB NVMe PCIe® SSD, there's plenty of super-fast storage to accelerate load times for your growing game library and professional portfolio.

LONGER LIFE ON THE GO

The ROG Zephyrus G strikes a perfect balance between power and portability. Its energy-efficient AMD Ryzen™ APU provides enough power for serious gaming, while also supplying sufficient battery life for up to nearly 7 hours of 1080p video playback or 5.5 hours of Wi-Fi web browsing*. Spend less time plugged in to a wall socket and more time on the move, surfing, streaming, and playing.

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each chassis and components, no matter what you're doing. The Zephyrus G's self-cleaning thermal module ejects dust to improve long-term stability, while dual n-Blade fans 83 blades each to generate impressive airflow within the slim frame. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

A STROKE OF GAMING GENIUS

Gamers will feel right at home with the keyboard's desktop-inspired layout, which has separate function blocks for intuitive identification, plus dedicated hot keys that put volume, microphone mute, and ROG Armoury Crate software within easy reach. Overstroke technology triggers higher in each keystroke for faster responsiveness, and N-key rollover registers every press precisely in the heat of battle. Work or play into the night illuminated by the pristine glow of clean white backlighting.

FORWARD-THINKING FUNCTIONAL DESIGN

Efficiency and innovation unite in the sleek, gunmetal grey ROG Strix SCAR III. Its strategic design is inspired by our collaboration with BMW Designworks Group, and carves out a cooling advantage with its 3D Flow Zone. The subtle, carbon-patterned interior is accented by Aura Sync lighting that extends across the new wraparound light bar, keyboard, and ROG logo. Whether you're gearing up for competition or hopping into quickplay, this metal-capped machine is fine-tuned and ready for action.

INTRODUCING THE KEYSTONE

Keystones offer a versatile new way to personalize your machine and protect your personal data. These physical, NFC-enabled keys fit neatly into the Strix SCAR III's chassis, adding a subtle accent along the trim. When docked, they instantly transform your machine with different effects and game-specific profiles, or unlock access to a secret Shadow Drive for covert private storage. This is only the beginning of the Keystone's potential. Glimpse the future today.

SEE THE GAME AT PROFESSIONAL SPEED

Play at the speed of professional esports with the world's fastest gaming laptop display. The 240Hz panel enables true high-FPS gameplay capable of keeping up with competitive gaming at the highest level. Stay in the flow of fast-paced action with impeccably smooth, crisp visuals that heighten your immersion. Get an edge in combat where rapid response and environmental awareness are crucial to victory. Experience games the way the pros do, and take your skills to the next level.

240Hz vs 60Hz

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each situation. The Strix SCAR III augments its well-ventilated exterior with a self-cleaning thermal module that ejects dust to improve longevity. Dual n-Blade fans spin 83 blades to increase airflow, and ultra-thin fins expand the surface area for heat dissipation. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

FORWARD-THINKING FUNCTIONAL DESIGN

Efficiency and innovation unite in the stealthy, midnight black ROG Strix Hero III. Its strategic design is inspired by our collaboration with BMW Designworks Group, and carves out a cooling advantage with its 3D Flow Zone. The subtle, cyber-text patterned interior is accented by Aura Sync lighting that extends across the new wraparound light bar, keyboard, and ROG logo. Whether you're gearing up for competition or hopping into quickplay, this metal-capped machine is fine-tuned and ready for action.

INTRODUCING THE KEYSTONE

Keystones offer a versatile new way to personalize your machine and protect your personal data. These physical, NFC-enabled keys fit neatly into the Strix Hero III's chassis, adding a subtle accent along the trim. When docked, they instantly transform your machine with different effects and game-specific profiles, or unlock access to a secret Shadow Drive for covert private storage. This is only the beginning of the Keystone's potential. Glimpse the future today.

SEE THE GAME AT PROFESSIONAL SPEED

Play at the speed of professional esports with the world's fastest gaming laptop display. The 144Hz panel enables true high-FPS gameplay capable of keeping up with competitive gaming at the highest level. Stay in the flow of fast-paced action with impeccably smooth, crisp visuals that heighten your immersion. Get an edge in combat where rapid response and environmental awareness are crucial to victory. Experience games the way the pros do, and take your skills to the next level.

144Hz vs 60Hz

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each situation. The Strix Hero III augments its well-ventilated exterior with a self-cleaning thermal module that ejects dust to improve longevity. Dual n-Blade fans spin 83 blades to increase airflow, and ultra-thin fins expand the surface area for heat dissipation. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

ROG Strix G

A NEW DESIGN PARADIGM FORM FOLLOWS FUNCTION

Inspired by our collaboration with BMW Designworks Group, the Strix G melds form and function with a 3D Flow Zone that offers cutting-edge cooling you can see. Contrasting brushed finishes slice across the lid, accenting an asymmetrical cut-out that ensures unrestricted airflow around the back, where scissor door hinges make room for additional venting. The sculpted shape and stealthy surfaces add low-key style that you can accentuate with an optional light bar that wraps RGB around the edges.

INTELLIGENT COOLING IMPROVES YOUR EXPERIENCE

ROG's Intelligent Cooling philosophy mixes the right features and system settings to ensure the best experience for each situation. The Strix G augments its well-ventilated exterior with a self-cleaning thermal module that ejects dust to improve longevity. Dual N-Blade fans spin 83 blades to increase airflow, and ultra-thin fins expand the surface area for heat dissipation. ROG Armoury Crate software seamlessly switches between operating modes to optimize performance and acoustics for the task.

SEE THE DIFFERENCE 144HZ MAKES

Victory comes down to just fractions of a second. Catch every moment of battle at up to 144Hz on the formidably fast gaming display. The rapid refresh rate makes full use of the powerful GPU, unleashing its potential for silky smooth graphics at truly high FPS. Framed by super-narrow bezels, the display gives you an expansive view of every encounter. With the superior visual accuracy and immersion, you can set your sights on being the last player standing.

STRIKE WITH PRECISION

Durability and precision define the desktop-inspired keyboard. Built with gamers in mind, it features spaced function keys for intuitive identification and dedicated hot keys for quick access to essential commands. Highlighted WASD keys* and 1-zone RGB lighting allow for easy visual navigation to crucial controls and shortcuts. With the toughness to last over 20 million keypresses, the Strix G can maintain its accuracy over a long lifespan of serious gaming.

EXTREME IMMERSION ON AN ULTRAFAST DISPLAY

The new NanoEdge design has a slimmer-than-ever 6.5mm bezel* for extremely engaging visuals in a much more compact package. FX505 features an ultrafast IPS-level panel for supersmooth gameplay with minimal motion blur. Wide-view technology ensures consistent colors when you're viewing the screen from extreme angles.

TOUGHER THAN STANDARD

Infused with the spirit of The Ultimate Force (TUF), FX505 has passed a series of rigorous military-grade MIL-STD-810G durability tests*, successfully surviving varying conditions including solar radiation exposure, high altitude, and temperature extremes. It's certified to endure day-to-day use, from accidental knocks to sudden drops on a desk. Durable and stable, FX505 has been pushed to the limit to ensure only the very best for gamers.

RGB-BACKLIT KEYBOARD

FX505 has a keyboard that's optimized for gaming, featuring RGB backlighting* across all zones that can be controlled via the TUF Aura Core panel so you can express your own unique style. Exclusive HyperStrike technology ensures more

accurate typing and improved ergonomics thanks to a desktop-inspired layout with a highlighted WASD key group, broader space bar, isolated arrow keys, and recognizable gaps between the function keys. In addition, Overstroke technology registers keystrokes faster for precise and effortless control

HYPERCOOL TECHNOLOGY IMPROVES DURABILITY

ASUS-exclusive HyperCool technology* consists of the Anti-Dust Cooling (ADC) system and Fan Overboost technology to ensure exceptional cooling during gaming marathons. Cooling is also improved by the patented trapezoid-cut lid and intelligent parallel fan placement.

PLAY IT COOL

Huracan features air intakes at the front, top and underside of the chassis. Opening the cover adds to that, allowing the maximum amount of cooling air into the chassis. It increases airflow by 16% and reduces internal temperatures by 15% to help cool critical components. Huracan gives you exactly what you want for gaming – a compact desktop that runs cool and quiet without compromising performance.

EASY-UPGRADE DESIGN

To ensure you're ready for future battles, both side panels slide open to reveal the internal components, giving you easy access when it's time to upgrade to the latest hardware. Upgrade to more powerful graphics cards, larger capacity storage drives, or simply add more RAM so your gaming rig is always up to date.

EXTRAORDINARY GAMING EXPERIENCES

To make sure Huracan gives you the very best gaming experience, ROG engineers play-tested the latest AAA games and the results are stellar: With 'Ultra' graphics settings, Huracan ran Destiny 2 in QHD at up to 100fps, and in 4K UHD at an astounding 60 fps.

* Tested on Huracan with an 8th Gen Intel Core i7-8700 CPU, GeForce GTX 1080 GPU, and 32GB DDR4 RAM.

REBIRTH OF A GAMING BEAST

The newly re-engineered ROG Strix GL12CX further pushes the limits of extreme gaming performance and features a striking, unconventional design. This Windows 10 gaming desktop now boasts the latest 9th Generation Intel® Core™ i7-9700K factory-overclocked processor and NVIDIA® GeForce® RTX 2080 graphics for unrivalled gaming experiences. It features the ROG-exclusive DIMM.2 module with support for dual SSDs that can be configured in RAID, along with tool-free expansion bays and an esports-ready hot-swap SSD tray for easy upgrades. A transparent side panel and Aura Sync lighting effects let you customize the colors of Strix GL12CX, inside and out.

KEEP IT COOL UNDER PRESSURE

ROG Strix GL12CX provides robust cooling for epic gaming marathons. Its intelligent cooling system features two dedicated isolated air chambers to improve heat dissipation. Strix GL12CX includes the innovative interwoven HyperStream design that allows for maximum heat removal and airflow into the chassis. In addition, the three fans on the top and bottom of the chassis ensure constant airflow through the system to keep the power supply and storage drives cool in the heat of battle.

PREMIUM AUDIO EXPERIENCE

ROG Strix GL12CX uses top-quality components to deliver especially warm and natural audio. Proprietary ROG Sonic Studio software provides clear and immersive sound, with a host of improved functions including virtual surround sound for stereo headphones, and enhancements to internet calls, audio streaming, and recording quality.

UNIFIED SYSTEM TUNING AND PERSONALIZATION

ROG Armoury Crate puts all essential system and lighting control at your fingertips in a single utility. You can easily change settings for both and define up to four game profiles that automatically make adjustments when you launch your favorite titles. Armoury Crate even lets you manually overclock ROG Strix GL12CX beyond the processor's factory-overclocked speeds. These options are just the beginning for what will become an even more versatile tool.

ARMED AND READY

Keep up with the arms race and make sure your arsenal's up to date with an upgrade-friendly design. ROG Strix GL12CX has plenty of room for expansion: a clever internal layout gives you space for additional fans and storage drives, with proper cable management to keep things neat and organized. You don't even have to open up the case when you want more storage space, simply pop a drive into the hot-swap 2.5-inch SSD tray.

TESTED FOR QUALITY AND PROVEN FOR RELIABILITY

Each ROG GL10CS is subjected to a series of rigorous quality tests, including drop and vibration, thermal, noise, and voltage testing to ensure it meets our exacting standards, and surpasses those of the competition. From the internal structure to the individual components and from mechanical design to electrical safety is tested to make sure the device you receive serves you reliably for years to come. The user comfort tests such as noise tests are carried out to isolate and optimize sound pressure and tones in different performance modes and scenarios to provide you with a comfortable experience even in the most demanding applications.

DUAL-CHAMBER S-SHAPE DESIGN

The chassis adopts a dual-chamber S-Shape design meaning that the main components, including the CPU, the motherboard, and the graphics card are isolated from where the HDD and power supply unit are stored so that the internal thermal channels will not warm up one another resulting in improved thermal performance.

IMMERSIVE AUDIO EXPERIENCE

Strix GL10CS implements DTS HeadphoneX audio enhancement technology. The immersive and high-fidelity 7.1-channel virtual surround-sound experience can deliver tailored audio based on different scenarios such as entertainment, games or sports modes. In addition, users also get to choose from wide in-front or even traditional dual-channel sound field experiences.

UNIFIED SYSTEM TUNING AND PERSONALIZATION

ROG Armoury Crate puts all essential system and lighting control at your fingertips in a single utility. You can easily change settings for both and define up to four game profiles that automatically make adjustments when you launch your favorite titles. These options are just the beginning for what will become an even more versatile tool.
